

Packaged Submittals

Create. Manage. Analyze.

Timely and accurate information is critical in the submittal process. Efficiently create, manage and move submittals through the review and approval steps with Kahua's Packaged Submittals app ensuring proper equipment, materials and other resources at the jobsite.

Benefits

Efficiency

Streamline the submittal process with automated routing and real-time updates.

Transparency

Maintain clear visibility of submittal statuses and important dates with color-coded views and task lists.

Accuracy

Ensure detailed and accurate submittals with all necessary information and supporting documentation.

The submittal process can be overwhelming for teams to gather all details and specifications to be reviewed and approved. Information and timing are critical and require a seamless process.
