

Kahua for Government Sources of Funds

The diversity of funding sources for Government Programs & Projects creates a challenge in both the planning and execution due to specific, and often complex, rules for how the funds are appropriated, released and utilized. Kahua's Sources of Funds provides a complete solution to streamline the dynamic management of funds across programs and projects.

You can easily define the availability and assignment methods for all funding sources, and tie funding to budgets, commitments and invoices. And with Kahua's reporting and dashboards you'll have a 360-degree view of funding with historical, real-time and projected visibility to meet today's reporting requirements and enable continuous improvement in managing funds.

Choose Kahua

Kahua is a leading provider of capital program and construction project management software, enabling innovation that is changing the way that capital programs are planned and delivered. Kahua's purpose-built solutions for owners, program managers and contractors enable rapid implementation that minimizes time-to-value and enhances user adoption. And with the industry's only low-code application platform, customers can easily customize existing Kahua apps or even build their own new apps to run their business at peak efficiency today and rapidly adapt as business conditions dictate.
