

# **BPGS**

## **CONSTRUCTION, LLC**

"Past software solutions held us hostage. With Kahua, we no longer have to put in a request for a report and pay extra to have someone create those reports."

**BPGS**

## Challenges

BPGS provides a broad range of integrated preconstruction and construction management services. Comprised of owners, builders and developers, the multi-disciplined firm needed technology that would allow team members to work more collaboratively with each division's specific workflows and a robust cost management solution. The rigid technology platforms they were working with were creating inefficiencies as well as risk. Duplicate data entry, multiple logins and lack of flexibility were creating roadblocks in the company's cost management and reporting capabilities.

## Solutions

BPGS's embrace of innovative solutions leveraged from the diverse market segments it serves drew it to Kahua's modern platform. Kahua's out-of-the-box functionality is easy to implement and flexible enough to be tailored to comply with BPGS's unique business processes utilizing kBuilder, Kahua's Enterprise Low-Code Application Platform. LCAP enables partners and customers to efficiently convert new ideas into apps in exponentially less time than traditional development approaches. Kahua's Cost Management suite enables true collaboration with complete control over access to cost data and approvals, change management and real-time visibility into the complete financial status of projects.

"Software being able to conform to your business is essential. It's not about how complex we can make it; it's about how easy can we make it for our users to adopt it."

**Monica Rizzo |**  
**Project Administration Administrator – BPGS**

### About BPGS

- Serves as the construction management and general contractor affiliate of the Buccini/Polin Group
- Manages projects from \$100,000 to excess of \$150 million
- Supports hospitality, industrial, entertainment, office, residential, parking and retail sectors in the Mid-Atlantic region

## Results

Kahua's robust cost management solution - with adaptable workflows, integrations to ERP, real-time reporting and the flexibility to rapidly configure and extend applications - allowed BPGS to deliver well-engineered, value-driven results in the most efficient manner to its clients. BPGS built a unique change order management process to manage budget and cost intuitively and effectively with kBuilder's low-code environment.

Kahua was able to rapidly conform to the needs of BPGS as a company and to each division's specific workflows and systems. Due to its great success, BPGS currently has plans to expand Kahua into five other divisions of the Buccini/Pollin Group.

## BPGS Saves Time and Money with Kahua

### Minimize Time to Value

The team saved two hours a week per project to view and compile reports. With real-time reporting for 10 ongoing projects, that's 20 hours of manpower freed up each week!

### Reduce Total Costs

BPGS reduced total solution costs by 70% compared to its former software when it shed inflexible, costly processes.

### Consolidate and Reduce Costs

By consolidating and reducing costs, Kahua replaced point solutions such as Dropbox, Bluebeam, DocuSign and more.

## Choose Kahua

With Kahua, you can minimize time-to-value and operate at peak efficiency today with the agility to quickly adapt and innovate, as changes in the industry dictate.
