

Kahua for Commercial: Drive Efficiency, Enhance Collaboration and Deliver Results

In today's fast-paced world it is important to have a competitive edge when managing capital programs for data centers, commercial properties, retail or pharma. Kahua delivers the platform to do just that, enabling you to deliver projects on time and on budget with flexibility, data security and real-time visibility to help your teams collaborate seamlessly from planning to handover. Whether supporting sustainable energy-efficient facilities for tech giants or ensuring smooth collaboration for retail construction, Kahua's platform is built to adapt. Learn how our solution applies across verticals:

- **Retail:** Enhance collaboration, improve efficiency and create a single source of truth for retail projects.
- **Big Tech & Data Centers:** [Secure data](#) handling and global scalability with SOC 2 Type 2 certification.
- **Manufacturing:** Streamline operations with cost management and analytics for complex manufacturing projects.
- **Pharma:** Ensure compliance and manage projects efficiently for complex pharmaceutical facilities.
- **Oil & Gas:** Leverage predictive analytics to manage cost overruns and regulatory compliance.
- **Airlines:** Stay on schedule and manage multiple projects across airports and maintenance facilities.

Key Capabilities

Capital Planning & Forecasting

Ensure on-time, on-budget delivery.

Customizable Workflows

Tailor processes to fit your project needs.

Seamless Integration

Connect with ERP and other key systems to streamline data flow.

Data-Driven Decisions

Gain insights with real-time analytics and reduce miscommunications.

Flexible Deployment

Adapt quickly to changing market demands with our scalable platform.

Why Kahua?

Data Ownership & Security

Own your data. Keep it secure with SOC 2 Type 2 certification and multi-currency, multi-language support.

Real-Time Visibility

Optimize performance with comprehensive project tracking and capital forecasting.

Tailored Workflows

Customize processes for your unique business needs, whether in data centers or manufacturing.

See How Kahua is Making a Difference

“We wanted something out of the box, but at the same time, we didn’t want something that was completely rigid. The ability to enhance the application to do specifically what we need, alongside requests to put general enhancements across the board, made Kahua the perfect fit. We were able to enhance processes, build new ones and drop old ones.”

– Austin Buege, Senior Manager of Real Estate Consolidated Systems, Floor and Decor

“There are a variety of applications that Group14 depends on regularly for our operations. As we grow, Kahua’s applications have the potential to help us accelerate in the future.”

– Nik Anderson, Director of Program Management, Group14

“We don’t have to over-communicate anymore. We used to address five people on an email, hoping it reached the right person. In Kahua, the message automatically goes to the right person. It’s more efficient communication that can’t get lost in an inbox.”

– Jessie Grider, Construction Project Manager, Red Wing Shoes

Choose Kahua

Kahua is a leading provider of capital program and construction project management software, enabling innovation that is changing the way that capital programs are planned and delivered. Global organizations use Kahua’s collaborative solution to improve efficiency, lower costs and reduce project risk throughout the entire lifecycle of their capital programs. Our purpose-built solutions for owners, program managers and contractors enable rapid implementation that minimizes time-to-value and enhances user adoption. With the industry’s only low-code application platform, customers can easily customize existing Kahua apps or even build their own new apps to run their business at peak efficiency today and rapidly adapt as business conditions dictate.
