STIP/TIP Offering

The Kahua Statewide Transportation Improvement Program (STIP/TIP) allows clients to put together multi-year intermodal transportation projects into a single package for funding approval. This offering also accounts for the amendments and modifications issued to an existing STIP/TIP. (A modification is a minor change as defined by the client and amendments reflect major changes to scope/cost of a project or projects in an already approved STIP.)

The Kahua STIP/TIP offering enables capital planning and portfolio management to create specific point-in-time scenarios for STIP/TIP submission, including changes.

Gather and package projects for easier, consistent reporting on improvement programs.

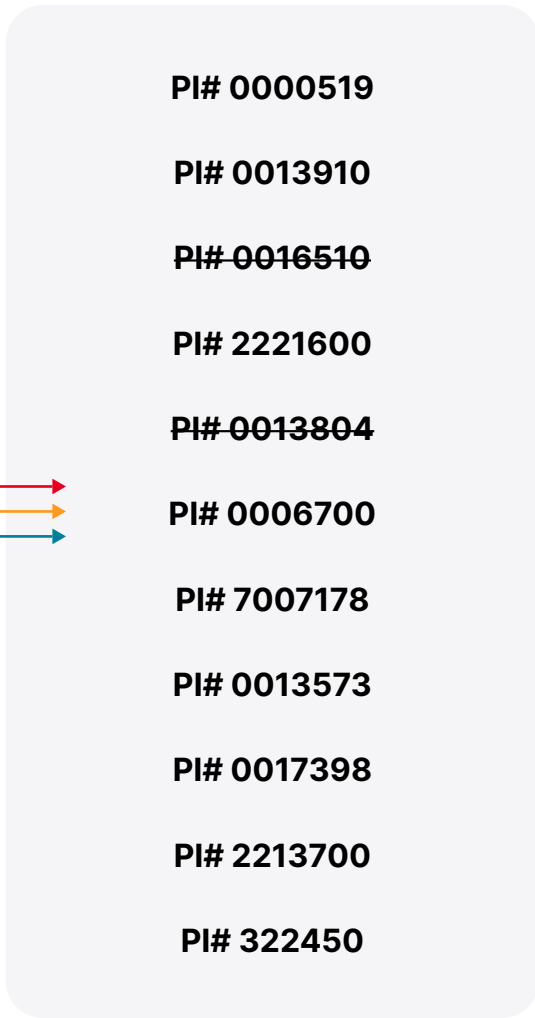

REQUESTS FOR PROJECTS

Departments submit the projects they would like to execute.

CHOOSE IMPROVEMENT PLAN PROJECTS

Projects are chosen to include in 5-10 year improvement plan.

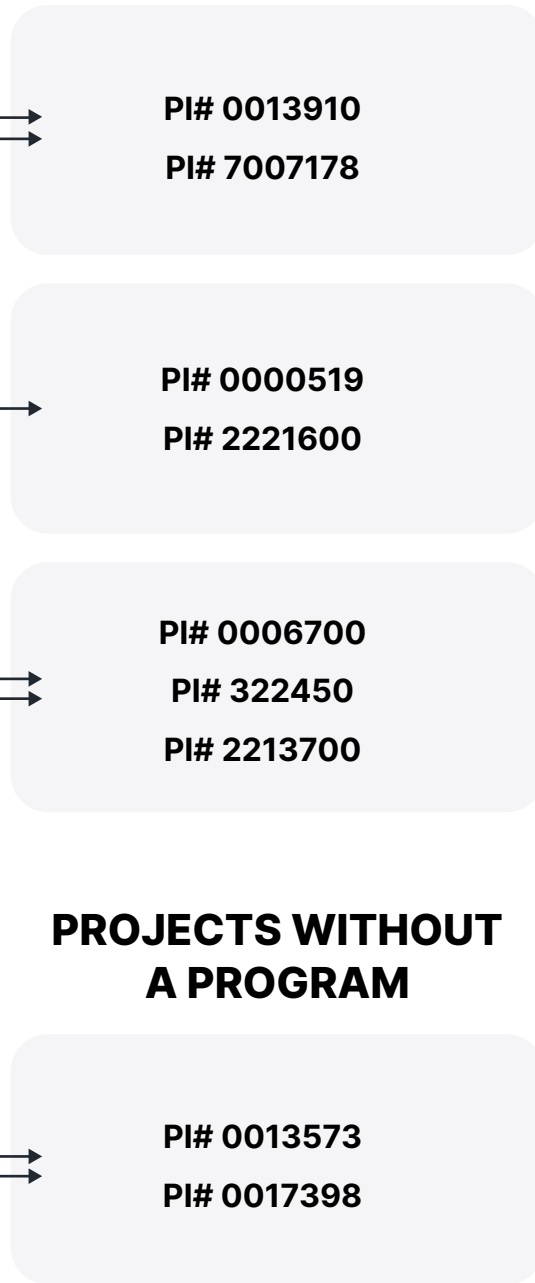

CREATE CAPITAL PLAN

Projects are allocated funding based on capital plan availability.

CREATE PROGRAMS

Projects begin execution. Performance is tracked and reported.

STATE & FEDERAL SUBMITTING & REPORTING BY PROJECT/ PROGRAM
